---

I wrote to the Commissioner. I think there was some confusion about this coming out of the last meeting. Should not be a problem for us. Let me get back to you

Dear Angela,

At our meeting on September 24 we agreed to have a thorough discussion of these issues among the lawyers. Judith Enck also said that she ultimately wanted to hear about those issues directly.

When Brian Carr, our attorney, contacted Chris King of the City Law Department, Chris was under the impression that no meeting would occur until a not-yet-scheduled Commissioner/Regional Administrator meeting. I've discussed this with Judith, and she urges us to proceed promptly with a meeting among the attorneys to work through the issues in depth. This would be followed by a meeting with the RA and the Commissioner.

I'd be grateful if you would advise your colleagues in the Law Department that Brian will be reaching out to schedule this initial "working level" meeting as soon as possible.

Thanks,

Walter
